OFFICE OF THE MAYOR

FOR IMMEDIATE RELEASE

No. 002

**MAYOR TECHNOZO RESPONDS TO THE CONTROVERSY SURROUNDING THE
LAS VEGAS CITY COUNCIL**

*Elected officials should be setting an example for the American people, not serve as the
ROBLOXian equivalent to reality television*

For years, the Las Vegas City Council (LVCC) has stood as the only municipal government in NUSA; everything they do in theory should be setting a strong precedent for future city councils that will form in our country. Unfortunately, **the only precedent the current LVCC is setting is how to operate disfunctionally and deaf to the American people.**

As the Mayor of D.C., I feel an obligation to make sure the American people know this is not how our city will operate. The nation's capital should operate in a way that respects the long history of the real-life United States and of NUSA. With Deputy Mayor Tankslayer10's assistance, I am making sure that the future D.C. City Council will operate in a way that's productive, transparent, and overall respectful of the democratic process.

As the first D.C. government since being re-established, I want to encourage the American people to run for the D.C. City Council and make a difference in their community. The Deputy Mayor and I will sign any petition that is sent to us because we want to help the public achieve a voice in their municipal government. For more information on how to run, [just follow this hyperlink](#). The deadline for petitions is February 25th, so I encourage candidates to act quickly to make sure they're on the ballot!

Thank you,

Technozo
